

# DWQ100 - WIPE ON APPLICATOR

DWQ100 is an easy functioning and fast Print&Apply system. It's in fact a long dispensing beak mounted on an Direct thermal printer. The main advantage lays in its simplicity - no unnecessary moving parts when you don't need them!

The DWQ100 is perfect for batch labelling of boxes etc that are of the same size and that moves at the same speed. It has the reliable, robust and easy to use design - as seen on all the Mectec family machines!

*Printer and applicator in right hand version*

*Box and tray labelling. Applies on moving products!*

*Handheld terminal TG300 (optional)*

*Printer Control Unit PCU III  
(Please note: ACC not included)*
